NATURAL SEAWEED POWDER

NATURAL SEAWEED POWDER

SEAWEED Extract Powder

We are manufacturing the seaweed powder from *Ascophyllum Nodosum* (Brown Algae) by unique spray dry method. It contains macro nutrients, micro nutrients, hormones like auxin, cytokinin, gibberellin and high amount of Alginic content (18%).

FEATURES :

- A) Salinity drought and freezing stress tolerance.
- B) Growth by modulating phytohormones.
- C) Nutrient uptake.
- D) Regulate expression of stress - responsive genes and miRNA.
- E) Root morphology and nutrition.
- F) Activates soil microbial population and improves soil health.
- G) Increases water holding capacities of earth.

DOSE :

Use 5 kg per hectare (Drip Irrigation).

APPLICATION :

Drip Irrigation : 5 kg of natural Seaweed Powder in 2500 ltrs of Water.

Parameter	Content
Appearance	Brownish Black
PH	7.00
Alginic	18%
Solubility	100%
Nitrogen	2.5
Phosphorus	4 %
Pottasium	18 %
